Existing Conditions

**Police Station**
The current Sandwich Police Station was built in 1971 for a Police Department of 9 officers. Today, the Police Department has a staff of 45. The antiquated building is inadequate to support Sandwich’s public safety mission and expensive to maintain.
- Critically insufficient space for current operations
- Not compliant with Local, State, and Federal codes
- Safety and security issues
- Inefficient HVAC and electrical systems

**Fire Station**
The Fire Headquarters was completed in 1955 for a volunteer department. The sub-stations were built later for a smaller full-time department and a large call department. The Fire Department now has a staff of 41 operating out of two of those same original buildings.
- Poor response times to East & South Sandwich
- No gender compliant living area and facilities
- 1 empty station
- Stations not designed for 24/7 operation

**Project Costs**

**Project cost - Buildings Only:** $17,000,000 (Previously $30,000,000)

**Tax Impact - 25 Year Bond - Buildings:** $92/year or $7.66/month

**Fire/EMS Personnel (Operating Budget) Override:** $750,000

**Tax Impact - permanent:** $71/year or $6/month

*The estimated amounts above are based on an average home value of $364,400.*

Additional Information

Tours of both the existing Police Station and Fire Station are scheduled by appointment. Please feel free to contact either department. You are welcome to come see the current state of our facilities and ask any questions to address your concerns regarding the project. The project site at the corner of Quaker Meetinghouse Rd. & Cotuit Rd. is already Town-owned, and provides ample room for additional public facilities in the future.
